CONTINUED COOL

VOLUME FIFTY

GREENCASTLE, INDIANA, MONDAY, AUGUST 24, 1942.

NO. 263

### ENROLLMENT OF FRESHMEN IS NEAR 500 MARK

ENROLLMENT EXPECTED TO BE  
NORMAL FOR FRESHMEN  
AT UNIVERSITY

SCHOOL WILL OPEN SOON

Many Students Are Now Returning,  
And Next Week Will See  
Many More.

The enrollment of freshmen at DePauw University has almost reached the 500 mark and will probably go over the number of 504 last year. And contrary to expectations for the war year, there are only 50 more women than men in the freshman class. A total of 1300 students is expected this fall, according to Willard E. Umbreit, Secretary of Admissions.

DePauw University is cooperating with the Army and Navy Reserve programs, to which freshmen are eligible. The quota for the Army Air Force and the Enlisted Reserve Corps unassigned has been raised from 156 to 210, according to an announcement made by Dr. Edward E. Bartlett, faculty advisor of the Enlisted Reserve Corps program. During the first semester students who can qualify will be admitted from all classes, but after December 31, quotas will be filled only from the freshman class.

In making recommendations scholarships and physical fitness will be considered. Preliminary to being recommended physical examinations will be given by DePauw physician Dr. George F. Parker, official doctor for the program.

Dr. Bartlett says: "This is not a means of escaping Army service as has been implied by some prominent educators. Students are placed in courses which will increase their effectiveness as officers in the Army and are regarded by the Army as definitely part of its service. Under emergency conditions the students enlisted in the Reserve Corps may be called for active service."

"We are also cooperating with the Navy," Dr. Bartlett added. They do not have quotas, but enlistments are made through DePauw. Students may enter V-1, through which they go to V-5 and V-7.

"DePauw is stressing the basic courses which lay foundations for all of the services and is offering special courses," he added. Courses which are especially for Reserve men are general physics, trigonometry, navigation, and the elements of geology. They are designed to prepare men for the V-1 Navy program and other requirements of armed service.

Activities for freshmen start September 1. Orientation week is September 2 and 4, with registration for all students September 5. Classes officially start Monday, September 7. The first semester under the accelerated program ends December 27. The second semester starts January 6. Spring vacation is from March 6 to 15, and the semester ends May 16.

### WARREN TOWNSHIP FOLKS TO HOLD HOME COMING

The annual Warren Township Homecoming will be held in the Methodist church at Putnamville with the dinner spread on long tables on the church grounds, Sunday, August 30. Special attention will be paid to the four churches of the township, the Methodist, Presbyterian and Christian of Putnamville, and the Deer Creek Baptist church south of Westland. All these organizations have had an interesting history.

The program will be opened in the forenoon, at which time there will be registration of visitors, but the principal program will be in the afternoon. The program will be varied. Roy E. Jones, now principal of schools at New Winchester in Hendricks county, but a former Warren township boy, is secretary of the organization, and A. L. Evans, of the same township, is chairman.

A very cordial invitation is extended to all former residents of the township to attend the exercises.

### CIRCUIT COURT NOTES

Cletus John Haggerty, of Indianapolis, charged by the state with drunken driving, following a wreck in which he figured at the intersection of roads 40 and 43, recently, was arraigned in Circuit Court this forenoon before Judge Marshall D. Abrams and pleaded guilty. On request of counsel for the defendant, judgment in the case was withheld until Monday, August 31.

### POST OFFICE ORGANIZATION IN GOOD OLD DAYS OF 1924

Greencastle people see the employees of the Greencastle post office every day in the week, year in and year out, and don't realize the changes that are gradually being made, but take this picture of 1924, and one can readily see many changes in those who are still delivering the mail. We promised not to tell where the photo came from, but no doubt there are several of them hidden in Greencastle homes. Five of the 1924 group have since passed on, but the others remain active. Those in the picture are: Front row, O. M. O'Hair, retired; Ernest Stoner and E. R. Bartlett, both deceased. — Second row — Frank Ashworth, retired; Keith Roberts, Clarence Hollick, Miss Elizabeth Ward, Mrs. Tulla Haymer, Ted McKeehan, Orville Hill, now a fireman; Harvey W. Owens and L. W. Crump. — Back row — Walter Woodrum, deceased; Mrs. Woodrum, Charles Crawley, deceased; Ben P. King, retired; Walter Evans, retired; Mrs. Evans, Sam Holbert, retired; J. C. Knight, retired; Robert Best, deceased; John Gray, retired, and Wallace Long.

### Award Swahlen Scholarships

THREE YOUNG PEOPLE GIVEN  
HONORS BY DEPAUW  
COMMITTEE

Miss Jane Noble, Kokomo, Charles Frie, Fort Wayne, and William Richard Fagg, Terre Haute, have been awarded Swahlen scholarships at DePauw University, where they will enter as freshmen this fall.

The scholarships were offered for the first time this year and were presented to students of Greek. They were awarded by a committee composed of Dean G. Herbert Smith and Dr. R. T. Stephenson, head of the Greek department. The \$25,000 foundation for the Swahlen scholarship was given by the late Dr. Percy H. Swahlen, St. Louis, Missouri, in honor of his father, William E. Swahlen, professor of Greek at DePauw from 1887 to 1915. Mrs. J. P. Allen, Jr., a sister of Dr. Swahlen, is a Greencastle resident.

All three of the winners are honor students and active in high school activities. Fagg was president of his senior class and active in Hi-Y and 4-H work, as well as being a member of the Young People's Club of his Methodist church. Frie was active in Boy Scout work and the Methodist Youth Fellowship. Miss Noble was editor of her yearbook and has received many awards, the Legion award, the Hi Tri scholarship. She was Junior-Senior Prom queen, also.

These students will arrive September 1 to take part in orientation week.

### MRS. CHARLENE RICHIE PASSED AWAY ON SUNDAY

Mrs. Charlene Wendal Richie, age 28 years, wife of Robert Richie of Washington township, died Sunday afternoon at the Union hospital at Terre Haute, following a very brief illness.

Mrs. Richie was a member of the Presbyterian church of Greencastle and a worker in the Woman's Circle of that organization.

Besides the husband, survivors are one little daughter, Roberta Ann, age 5 years; her parents, Mr. and Mrs. Charles Wendal of Washington township; one sister, Mrs. Earl Taylor of Osborn, Ohio, and a brother, Theodore Wendal of Washington township.

Funeral services will be conducted Tuesday afternoon at 2:30 o'clock from the McCurry Funeral Home. The Rev. V. L. Raphael will officiate.

Friends may call at the home of Mr. and Mrs. Arthur Richie, Manhattan Road, until 10 a. m. Tuesday.

### Postmistress At Fillmore Dies

MISS IVA ELLIOTT HAD BEEN A  
PATIENT IN ST. VINCENT'S  
HOSPITAL SOME TIME

Miss Iva Elliott, postmistress at Fillmore, died early Monday morning at the St. Vincent's hospital in Indianapolis, where she had been confined for some time.

Miss Elliott was well known in Marion township, where she spent most of her life. She was born and reared in Putnam county.

Funeral arrangements will be announced later.

### BUY BOOKS NOW

Because of the unusual coincidence this year of having DePauw, the city public schools, and the county schools, all opening at approximately the same time, Mr. Boston, city superintendent, strongly urges parents to purchase school books for children in elementary grades before the opening date. This will not only assure parents of better chances of finding supplies on hand, but it will also help eliminate serious congestion on opening days.

Because of the variety of subject elections, high school students, Mr. Boston indicated, would for the most part need to wait until after enrollment before purchasing texts.

### Committee Starts Rewriting Tax Bill

SEN. TAFT CALLS FOR A 10 PER  
CENT GENERAL RETAIL  
SALES TAX

WASHINGTON, Aug. 24 (UP)—The Senate Finance committee begins rewriting the House Tax Bill today as Sen. Robert A. Taft, R., O., called for a 10 per cent general retail sales tax.

Taft estimated that his proposal would raise about \$4,000,000,000 annually in new revenue. He objected to the pending House bill, which would raise \$6,270,000,000 a year, because "it fails to tax two-thirds of the people's income" despite lowering exemptions and raising the tax rates.

"My view is that the best method of reaching all the income is through a sales tax, supplemented by the graduated income tax for single persons over \$1,000 and family incomes over \$2,000," he said. "Being a tax on spending, it discourages spending and so prevents inflation."

Taft's views were expressed in a radio debate last night as Finance committee chairman Walter F. George, D., Ga., announced that his group would reopen the income tax structure approved by the House for possible further increases. The House plan would nearly double the revenue expected this year from that source.

"If America is serious about paying for the war and checking inflation," George said, "the House figure of \$4,000,000,000 in new income tax revenue must be increased."

### PUTNAM CO. HORSEMEN ATTEND PARKE CO. SHOW

The Parke County Saddle Club held a horse show Sunday at Portland Mills. Those from Greencastle who attended were Lee Williams, Bob Williams, Mr. and Mrs. Richard Sandy, Mr. and Mrs. Kent Lenzen, J. Don McLean, J. D. McLean, Albert Dobbs, O. R. Matthews, Miss Nancy Cooper, David Houck, Miss Elizabeth Rariden, Mrs. Eleanor Wilkinson and Miss Peggy Sandy.

Miss Peggy Sandy placed first in the three gaited class, Mrs. Wilkinson first in the five gaited, Mrs. Wilkinson first and Miss Sandy second in the ladies horsemanship class, and Miss Sandy third in the pair class. Mrs. Wilkinson was first in the model class, and also won the sweepstakes.

### Allied Pilots Down 13 Planes

ENEMY BOMBERS NEVER HAD  
CHANCE TO DROP BOMBS  
ON MILITARY TARGETS

GEN. MACARTHUR'S HEADQUARTERS, Australia, Aug. 24 (UP)—Allied fighter pilots using new secret battle tactics shot down at least 13 Japanese planes and probably 15 more out of an enemy fleet of 47 which attacked the great north Australian base of Darwin, it was announced today.

Not a single Allied plane was lost. Curtiss P-40D planes, in what Gen. Douglas MacArthur himself called a brilliant tactical interception, dived at all angles on a powerful force of 20 new Jap Zero fighters and 27 heavy bombing planes.

Holding their fire until the last, the Allied pilots smashed the Japanese attack completely. They shot down at least nine Zeros and four bombers, saw two other bombers struggling off jettisoning their bombs and trailing smoke, and damaged others so severely that it seemed highly unlikely they reached the nearest enemy bases.

So devastating was the Allied attack, the enemy bombers never had a chance to drop their bombs on military targets. Such bombs as were not jettisoned in wild flight struck in the bush outside the Darwin defense zone and started a few grass fires. The fires were the only damage in one of the biggest Japanese raids.

### City Budget Is Fixed At 81.5 Cents

TEMPORARY FIGURES REACHED BY CITY COUNCIL  
SHOW DECREASE

The Greencastle city budget which has been prepared for submission to the tax-payers and to state officials, for 1943, shows a decrease of three cents in the total city levy, the rate proposed by the council being 81.5 cents per \$100.

This rate is three cents under the rate payable in 1942, but the total amount of taxes to be paid by property owners next year will be approximately the same as this year. In the face of increased wages amounting to more than \$1,500, the council has lowered the rate, through a big increase in the assessed valuation in Greencastle and by cutting off a portion of the Park budget and placing it in other funds.

### 20 Years Ago IN GREENCASTLE

College dramatics students under the direction of Prof. Robt. E. Williams gave two plays, marking the close of summer school.

Jacob Hirt, Jr., of Indianapolis, visited friends in this city. Cecil Sutton of Reelsville was a business visitor in this city.

Miss Irene Huestis resumed her work in the Langdon book store after a vacation.

### DR. WILDMAN ANNOUNCES NEW STAFF MEMBERS

FOURTEEN TEACHERS AND AD-  
MINISTRATORS ANNOUNCED  
FOR OPENING OF SCHOOL

BARTLETT ADMISSION HEAD

Other Vacancies Filled And Staff  
Will Be Ready For School  
Opening Sept. 2

Fourteen new instructors and administrators will be at DePauw University this fall according to Dr. Clyde E. Wildman, president.

Willard E. Umbreit, former coach here, is new Admissions Secretary. Dr. Edward R. Bartlett, already on the administrative staff as dean of the College of Liberal Arts, is now Director of Admissions and faculty advisor for the English Reserve Corps program.

Robert E. Elder, former professor of International Relations and assistant to the president at Danville Central Normal, will be publicity director in the absence of Russell Alexander. He received his A. B. at Indiana State Teachers College and his A. M. from the University of Chicago.

Willard B. Phelps will be instructor in geology, replacing Dr. Joseph R. Clair. Phelps is from Hampshire, Ohio and received his B. S. degree at the University of New Hampshire and his A. M. at Ohio State University. For two years he has been associate professor of geology at the University of Tampa.

Joseph P. McMenamin will be instructor in botany, replacing Professor Youse. He comes from the Springfield, Illinois, junior college. He received his B. S. in 1938 from the University of Illinois and his M. S. in 1940 at North Carolina State College.

James Ming of Chicago will replace Professor Shadobit as instructor of piano. For the past two years he has been a member of the music faculty of the Panhandle Agricultural College, Goodwell, Oklahoma. He received his B. M. and M. M. degree at the Eastman School of Music at Rochester University, Rochester, N. Y.

(Continued on Page Two)

### Kaiser-Hughes To Work Together

REGARDED AS KAISER'S FIRST  
ANSWER TO CRITICS OF  
FREIGHTER PLAN

SAN FRANCISCO, Aug. 24 (UP)—Henry J. Kaiser, the west's "miracle builder," and Howard Hughes, multimillionaire airplane designer, tool maker and speed flyer, teamed today to build 500 of the world's largest cargo planes.

The union of the Kaiser-Hughes forces was announced here by Russell Birdwell, Hollywood publicity man who long has represented Hughes and hereafter will handle press relations for both Hughes and Kaiser.

Birdwell said the 50-50 partnership would combine the proved genius of Kaiser with the proved aeronautical engineering ability of the 36-year old Hughes, whose 57-passenger stratosphere plane "Constellation" is under construction at the Lockheed Aircraft corporation plant at Burbank, Cal.

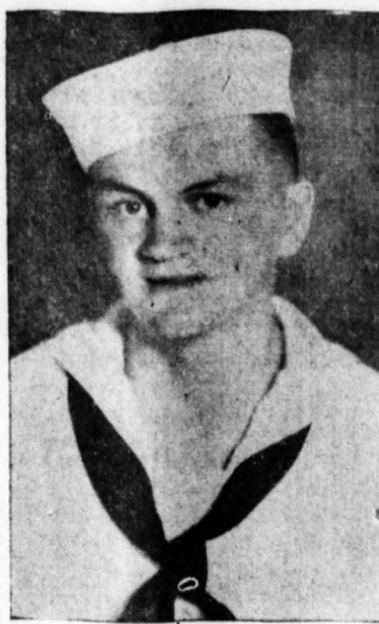

Announcement of the Kaiser-Hughes partnership was regarded as Kaiser's first answer to critics who have described his air freighter plan as fantastic.

### RURAL SCHOOLS MAY ASSIST WAR EFFORT

Frank Jarrell, superintendent of county schools, has received a communication from Clement T. Malan, state school superintendent, advising Mr. Jarrell that, in response to requests made to Mr. Malan, he has formulated a plan whereby the rural schools of the state may be organized for additional war policy by the division of the schools into six regions. Putnam county being placed in the third region, with all of its adjoining counties and others in this part of the state.

The purpose is to advise and counsel in school matters so that the schools may have concerted action. Geo. C. Carroll, superintendent of the Terre Haute schools, is the chairman of the third region. There will be a meeting of the superintendents of these third regional counties in the high school office at Crawfordsville, Sept. 19, at 2:30 p. m.

### SERVING COUNTRY

Buell Preston Ross

Buell Preston Ross, "Big Boy Ross" is the son of Mr. and Mrs. Walter L. Ross of Fillmore. He graduated from the Fillmore High School with the class of 1942 and was an outstanding player on the Fillmore basketball team last year. His address is Co. 596-Bat. 9, U. S. Naval Training Station, Great Lakes, Illinois.

### DePauw Grad Dies In Crash

JAMES E. HUDSON KILLED IN  
NEW MEXICO AIR TRAG-  
EDY SUNDAY

Lieutenant James E. Hudson, Indianapolis army flyer and son of Mrs. Martha Hudson, hostess at the Meridian Hills Country Club, Indianapolis, was one of seven men killed in the crash of a Flying Fortress bomber in the southern New Mexico mountains early Sunday morning, army officials have informed his mother.

A telegram sent to Mrs. Hudson Sunday night said the craft crashed on a routine training flight in the vicinity of Las Cruces, N. M., at approximately 2:30 a. m. August 23. Two other men, an officer and an enlisted man, parachuted from the four-motored plane as it circled the Corralitos ranch twenty miles northwest of Las Cruces, and were injured in landing.

Lieutenant Hudson, age twenty-two, was a 1937 graduate of Shortridge High School and a graduate of DePauw University in 1941. He was a member of Sigma Chi Fraternity. He entered the air forces immediately after graduation from DePauw and received his wings early this year at Luke field, Arizona. He was stationed at Biggs field, El Paso, Tex.

### Republicans Meet To Nominate Dewey

ACCEPTANCE ADDRESS TO BE  
BROADCAST BY RADIO AT  
9 O'CLOCK TONIGHT

SARATOGA SPRINGS, N. Y., Aug. 24 (UP)—New York state Republicans conscious of their best opportunity in 20 years to take over the state government from the Democrats, met in convention today to nominate the former racket-busting prosecutor Thomas E. Dewey as their gubernatorial candidate.

As was the case at the Democratic convention last week, leaders were looking ahead to the presidential race in 1944 and the name of Wendell L. Willkie figured in an incident among leaders which accumulated a little heat for a time.

Some wanted the convention to pass a resolution praising Willkie. Anti-Willkie Republicans and Dewey men who envisage their man as the Republican presidential candidate, objected, fearing it would be construed as an endorsement of Willkie for 1944. As a result the convention will pass a resolution wishing him "God speed and success on his trip to Russia and the Near East as President Roosevelt's special envoy."

Republicans were jubilant, figuring that their opposition which has been in a majority in all state elections since 1920, will be divided in November.

In order that Dewey may open his campaign with his acceptance address to the convention, he will not be nominated until this evening and his speech to the convention and to the state by radio will begin at 9 p. m.

### AMERICAN MEN AND EQUIPMENT ARE DISTRIBUTED

FORM GREATEST ATLANTIC  
CONVOY OF WAR AND OF  
ALL TIMES

PLANES GUARD LINE OF SHIPS

Men Of Almost Every Branch Of  
Fighting Services Were  
In The Convoy

AT A BRITISH PORT, Aug. 24 (UP)—American pilots, ground crews, troops, nurses, planes, tanks, guns and assorted equipment were distributed to United States Army depots throughout the British Isles today from the greatest Atlantic convoy of this war and one of the greatest of all times.

The convoy was so big that it was necessary to land it at several ports, where special buses, trucks, trains and even street cars were waiting to start the fighting men and the Army nurses to their destinations.

Men in the gigantic convoy came from all parts of the United States.

They were escorted by a powerful force of United States Navy ships. On the American side, Army planes shepherded the convoy far out to sea, and British planes picked it up on this side.

Once during the voyage, the convoy veered sharply to a new course when submarine activity was reported nearby. Soon after the convoy left the United States there was a moment of excitement when a destroyer dropped depth charges. But a derelict merchantman wreck had been mistaken for a submarine, and the only result of the bombing was that a "slick" made up of lemon extract, appeared on the surface. At other times the warships, which varied in number and size according to the danger of each particular ocean zone, engaged in gun practice which kept the troops entertained.

Perfect weather, a bright sun and temperature unusually mild for the route the convoy followed, favored the voyage. The closely packed troops spent much time in the favorite army indoor sport of shooting dice.

One doughboy who won \$1,000 the first two nights out hired two others at \$5 a day as guards to shoot off the losers who tried to get him back in the game. The guards erected rope barricades around his little patch of the deck and he read in peace the rest of the way.

Men of almost every branch of the fighting services, including many specially trained, in addition to the Army Air Force crews, were in the convoy.

### TEMPERATURE OF 50 DEGREES RECORDED MONDAY A. M.

A temperature of 50 degrees above zero, reached at 5 o'clock this morning, came at the close of a night during which the coolness of the atmosphere had steadily increased from the afternoon before. Saturday night, an even inch of rainwater accumulated in the gauge, and the atmospheric disturbance accompanying it started the shrinkage of the column of mercury in the temperature gauges.

The mark of 50 degrees this morning was 6 degrees lower than the previous lowest of the season—56 degrees early the morning of Wednesday, August 12.

Putnam county's corn crop is not ready for the closing of the warm season, on an average, but there are fields that may be far enough along in maturing to ripen satisfactorily. Much of it, however, is yet thoroughly green.

### Today's Weather and Local Temperature

Continued cool this afternoon and tonight.

### FIRE FIRST SHOT

LONDON, Aug. 24 (UP)—Franklin Koons, a 23-year-old farm boy from the Iowa hog and corn country, moved up to a crack in an old French stable

**TIRE SHORTAGE? SO WHAT?**—Its wheels equipped with flanges instead of rubber tires, this converted seven-passenger automobile is used on the rails by the Chicago terminal manager of Illinois Central Lines. Attached turntable makes quick about-face possible. Note cow-catcher.

**COMMANDO'S TARGET**—Aerial view of the city of Dieppe, France. American Rangers, Canadian and British Commandos and contingents of the Fighting French landed in force on the coast, protected by umbrella of RAF planes, inflicted great military damage.

wall, poked his rifle through and pulled the trigger.

Today Corporal Koons was credited by his commanders with firing the first American shot on European soil in World War II.

Koons is a member of the American Rangers and he participated in the Dieppe attack last week. But not until he got back to Britain and the reports of the Americans in the attack were checked did he know he'd fired the first shot.

Koons went ashore on the Dieppe coast with three other American Rangers. They moved up under cover of a gully toward their objective—a Nazi coastal battery—and encountered some sniping from the Germans.

Here, in Koons own words, is how the first shot was fired: "I took refuge in a stable and began sniping back, firing through a crack from a standing position. I fired quite a number of rounds at odd, stray Jerries who sometimes appeared and I am pretty sure I got one of them."

### GORDON OTIS IS AWARDED WINGS; SENT TO NORFOLK

Copies of the Bridgeport, Conn., Post have been received here by friends of Mr. and Mrs. C. W. Otis, former residents of Greencastle, telling of the approaching marriage of

their son, Ensign Gordon O. Otis and Miss Alice Belle Reid, and the receiving of a commission in the navy by the young flier.

The clippings in part said: Home on a brief furlough after having won his Navy "wings" following several months of training at U. S. Naval Air Station, Jacksonville, Fla., Ensign Gordon R. Otis, son of Mr. and Mrs. Clarence W. Otis, of Rowland road, Fairfield, is preparing for his tour of duty as a member of the Navy's air forces at the Naval station in Norfolk, Va.

He is to report for assignment to active duty on Aug. 23. Capt. John D. Price, commandant of the U. S. Aviation center at Jacksonville in awarding him his commission as Ensign on July 31, congratulated the young Fairfield flying officer upon his fine record as a student and welcomed him into the Naval air forces.

Ensign Otis reported to Capt. Price at Jacksonville as an aviation cadet, last February, having previously completed the prescribed period of elimination flight training at the Naval Reserve Aviation base, at Squantum, Mass.

Mr. and Mrs. Charles W. Reid of 16 Craig place, Fairfield, announce the engagement of their daughter, Alice Belle, to Ensign Gordon R. Otis, son of Mr. and Mrs. C. W. Otis of Rowland road, Fairfield.

Ensign Otis was graduated from Roger Ludlowe high school, attended the Roosevelt Aviation school for two years, and the University of Connecticut for two years.

### CARE OF MATTRESSES

With warm days ahead, put cotton mattresses out in the sun several days to fluff the cotton for more sleeping comfort, suggests Miss Inez E. Kent, Purdue University extension home economist.

The comfort of a mattress and the length of service it will give depend in a large measure upon the care it receives. A new mattress should be sunned for several days to fluff the cotton, and every week of two thereafter, when weather conditions permit.

A mattress should be bent as little as possible, and never stood on end, but left flat. Never beat a mattress with a carpet beater or stick, as such treatment is apt to break apart the layers of felt, causing the filling to become lumpy and the ties that hold the tuft may break, adds Miss Kent.

Clean a mattress by brushing with a stiff brush or whisk broom or with a vacuum cleaner attachment. Mattresses should be turned from end to end and side to side alternating weeks so that the cotton will not get lumpy and the mattress will not sag in spots.

**NAZIS BAGGED**—Radioed from London to New York, this picture shows blindfolded Nazi prisoners, captured during the commando raid on the occupied French coast, being carefully guarded by their captors, at an unnamed southern British port.

come. Seed testing 55 pounds per bushel or even as low as 50 pounds per bushel may give satisfactory results under favorable conditions.

It is especially important that farmers check seed supplies for moisture or heating damage. Foul odors in the bin indicate wheat that is unsatisfactory for seed. Germination tests before seeding are important in the case of questionable seed.

Leading Indiana varieties continue to be Fultz and various selections from it, along with Rudy, Michigan Amber and crosses of these varieties. Purdue No. 1, Trumbull, Wabash, Fulhio, and Fairfield are all relatives of these varieties. Trumbull, Fulhio and Thorne are very resistant to loose smut or black head, and can be used by farmers objecting to this disease. Acreage inspected for certification by the Indiana Corn Growers' Association included most of the mentioned varieties and Glad-den and the early Goens in addition. These and other listed sources are available at the Association's office at Lafayette, at the offices of county agricultural agents, and at local seed distributing points.

Varieties brought in from western or northwestern states are not well suited to Indiana and in most cases will not produce soft wheat flour which is the present day need of Indiana millers. Ohio and Kentucky varieties are generally soft and acceptable where adapted.

Private Bobby Spencer returned to his camp in Louisiana, Monday.

Mrs. Jim Smith spent the week end in Indianapolis with her daughter.

**LAUDS CHINA**—Brig. Gen. Claire L. Chennault, leader of U. S. Army fliers in China, who on that country's recent Air Force Day, lauded its heroic aviators and stated that they were destroying Jap planes in increasing numbers.

## Cook With Peanut Butter

Recent nutritional research has unearthed all sorts of food values where we housewives least suspected them. Take peanut butter, for instance. To most of us, peanut butter has been something to spread on children's bread and butter after school—serve for noontime luncheon snacks—and pack in picnic baskets.

But now, scientists and the Government say that peanut butter is a most important food, and it is listed prominently in the recently prepared nutritional program—U. S. NEEDS US STRONG—along with butter and other vitamin rich fats and spreads as a potent source of the energy we need for daily living.

About the same time it achieved this new nutritional rating, peanut butter was "discovered" as a delicious and adaptable food to use in cooking. Now peanut butter is not merely a tasty spread to put on bread, but has become an important ingredient in all manner of "made dishes", too.

The fine, pungent flavor of peanut butter imbues a dish with a delicate nutty quality that is pleasing to everyone. And the extra fat in peanut butter assures a double portion of shortening which makes a smooth, velvety texture unique to every peanut butter dish. Even without its dietary value, this is enough to justify the success of peanut butter in cakes and cookies, pies, pastries, meat loaves, salad dressings, puddings, and fruit desserts. Here are

three recipes to start you off on this popular new kind of cookery:

## Peanut Butter Meat Loaf

Have ground together twice—  
1 pound raw cured ham  
1/2 pound fresh lean pork.  
Mix together thoroughly—  
Ground meat  
2 cups rice flakes  
1 teaspoon Worcestershire sauce  
1 egg  
3/4 cup milk  
3 tablespoons peanut butter  
Dash of pepper.

Form into oblong loaf in a dripping pan, patting together well. Bake in a moderate oven (350° F.) until loaf is done, about 1 hour.  
Note: May be baked in loaf pan if desired. Peanut butter gives meat loaf a rich nutty flavor similar to that of baked Virginia ham.

## Peanut Butter Custard Pie

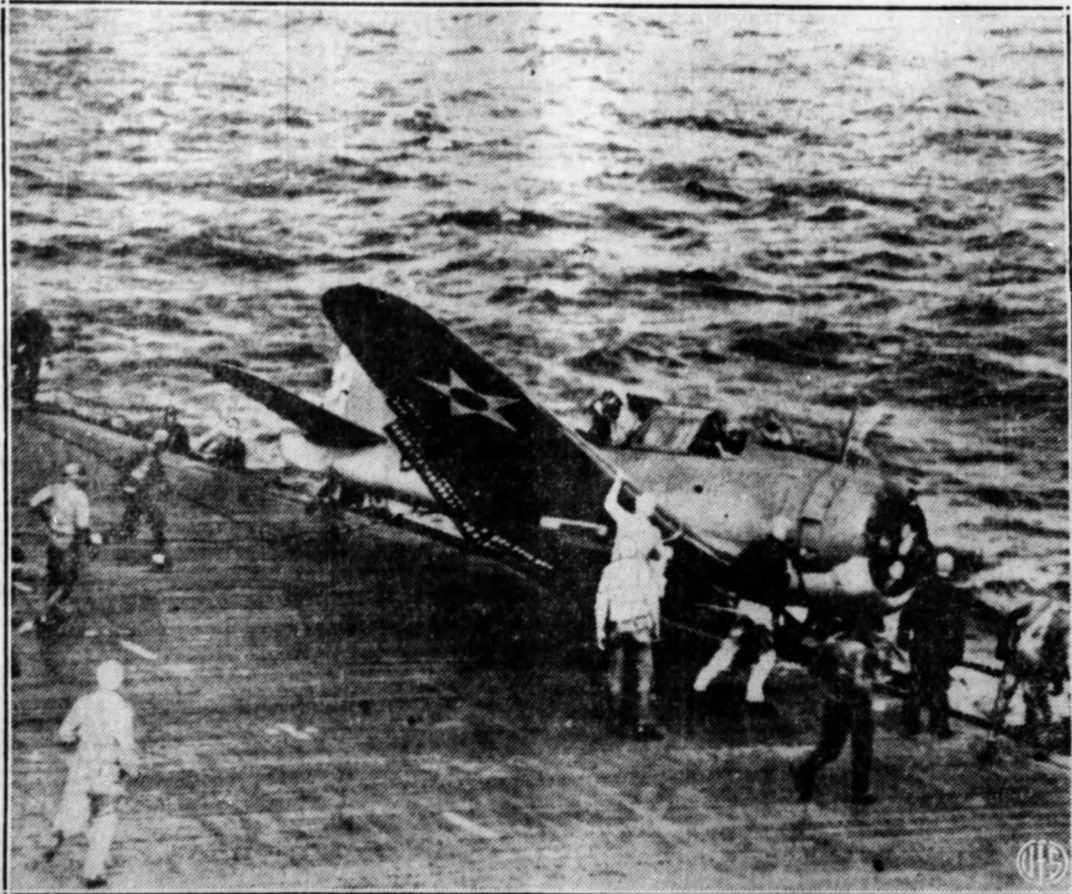

Combine, mixing well—  
1/2 cup peanut butter  
1 cup dark corn syrup  
Add, beating with rotary egg beater until well blended—  
3 eggs, well beaten  
1 1/2 cups milk  
1/2 teaspoon vanilla  
Pinch salt.

Pour in—  
Unbaked 9 inch pie shell.  
Bake in a moderate oven (350° F.) for 1 hour or until done. Cool and serve. May be topped with whipped cream if desired.

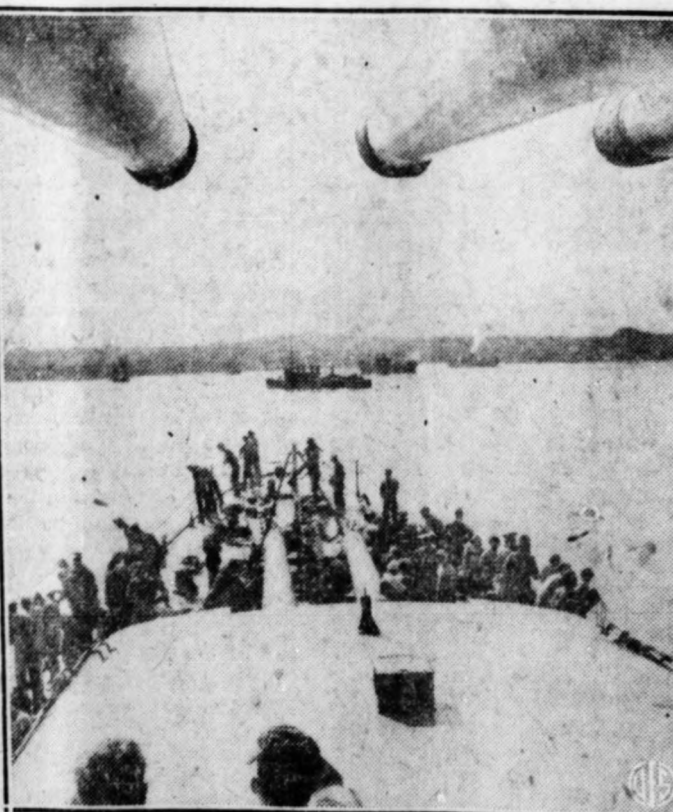

## Peanut Butter French Dressing

Mix in bowl, beating thoroughly until well blended—  
1/4 cup peanut butter  
1/2 cup salad oil  
1/4 cup pure cider vinegar  
1/2 teaspoon salt  
1 teaspoon sugar or light corn syrup.

Serve with mixed vegetable salad.

**CRASH LANDING**—This U. S. Navy scout bomber, on patrol duty somewhere in the Pacific, crashed as it came in for a landing on aircraft carrier deck. When picture was taken, motor was still running. Crew speeds to keep plane from going overboard.

**SUPPLIES FOR THE BOYS**—A U. S. cruiser, foreground, and a destroyer, center, keep a protective eye on cargo ships which they have convoyed across the Pacific. Once safely in harbor, supplies will be unloaded for an American base somewhere in the southwest Pacific.
